VISION, MISSION & VALUES

Vision

What is ASK goal ?

Mission

What is ASK established for ?

Values

What is ASK like ?

Vision

PT Airindo Sejahtera Konstruksi (ASK) is to be recognized as a leading construction company in Indonesia as well as in International scope which is reliable and quality focus in a way to provide best benefits to our shareholders and customers.

Mission

PT Airindo Sejahtera Konstruksi (ASK) is to bring positive impact on changes by providing shareholders and customers with values that delivered through ASK expertise in Engineering, Construction, Inspection, and Project Management serving for Indonesian society, and generally, for the world community. We believe economic goodness can be achieved while maintaining the environment as a legacy that benefits the lives of many people.

Value

Integrity and Accountability

We prioritize honesty, responsibility, and loyalty at work.

Creative to Achieve Accuracy

We learn and adapt to technology as a part of our team satisfaction in terms of delivering the best to fulfill stakeholder expectation.

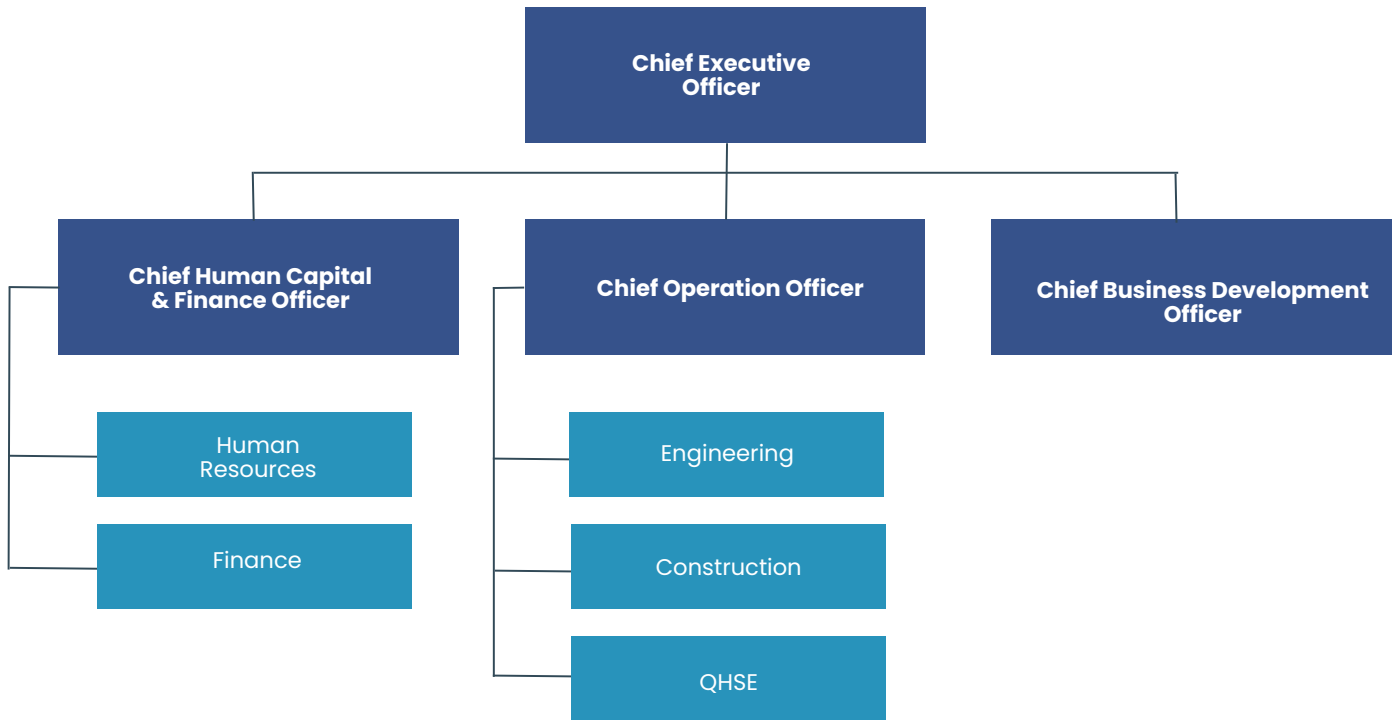

Customer and Service Orientation

We strive to provide products with demonstrable value, take the initiative and focus on solving existing problem to prevent any future problems.

Focus on Safety and Environmental Sustainability We protect our employees, the public and the environment. We make health, safety, security and environmental considerations a priority in everything we do.

Communicative

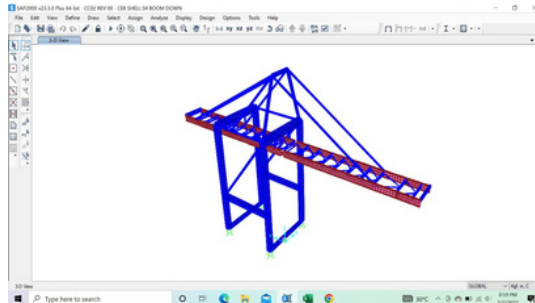

We are open and proportionally, to ensure all interested parties can understand the message conveyed.

ORGANIZATION CHART

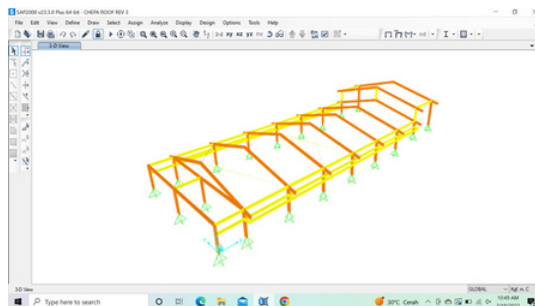

PROJECTS HIGHLIGHT

Variations of construction demand from our Clients with the limitation of historical calculation reports, drawing references and/or non-existence of proper operating facilities might occur as challenges over time. Nevertheless, we managed to deliver the process and result in excellence.

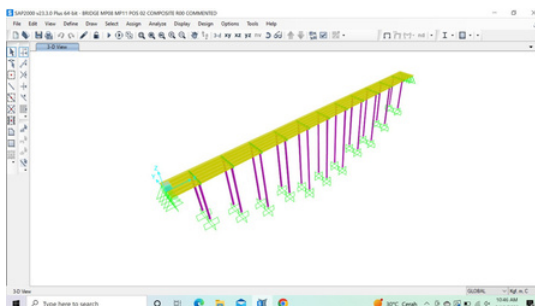

**PT Mitramulti Hijau Abadi o.b.o PT
Bureau Veritas Indonesia
April 2022 | Surabaya**

Remaining life assessment of QCC crane
35-ton SWL life expectancy checking and
necessity measurement to purchase the
new crane.

**PT Kalbe Farma
February 2022 | Jakarta**

Engineering assessment for solar panel
installation at the top of the Dankos
Cepha building to support
sustainability and clean energy.

**PT Vtech Mulia o.b.o
PT Rekayasa Engineering and
PT Freeport Indonesia
October 2021 | Papua**

Sturdiness bridge assessment to
support the 133-ton equipment
displacement plan.

We provided prompt technical solutions such as conducting assessments to check the current conditions ensuring safety and constructability by doing direct surveys including Visual, Ultrasonic Testing, MT and/or conservative approaches and also recommending a material reinforcement by enhancing structures or elements to build up its sturdiness and reducing the incident probability.
